

## COIR FIBER

Geewin's Coir Fiber is extracted from the fibrous outer cover of the fruit of the Coconut Plant. They are white or light brown in color. Our Natural Coir Fiber is spun to make yarn to make mats or rope. Coconut Coir Fiber, we produce is water-proof and resistant to salt water. We are one of the leading Coconut Coir Fiber Manufacturers & Suppliers, based in India. We provide Coir Fiber that is free from 2-3% pith, roots, etc. Natural Coir Fiber is baled with the assistance of rust free Iron Hoops (or) plastic straps, to ensure its high quality and utility.

Geewin Exporters is a leading exporter of natural Coir Fiber. This is extracted from matured green and brown Coconut Husks. It is then processed into the finest fibers which go into the making of mattresses, door mats, sacking, etc. Coir Fiber is of two types—brown and white. Coir obtained from fresh green Coconut is termed as White Fiber, which is finer than the Brown Fiber.

### **Brown and Golden White:**

**Fiber Length 15-25 cm ( 80% more than 20 cm) Impurities:** Less than 1% Very clean and soft fibers **Dust:** Less than 1% **Moisture:** Less than 15% **Weight deviation:** Less than 0.5%
